Career Objective

I am looking for software developer roles. I am a curious and self-motivated software developer. I bring with me 3 years experience of teaching and 1 year experience of customer service to my new career in tech. What I learned about myself in my previous roles was that I can stay calm and work well under pressure. I also demonstrated communication, problem-solving and teamwork skills.

During training in Dev Academy, as soon as my first web page showing on the browser, I was amazed by the power of code. I am excited that I can make things for many other people to use. I am so glad I took the lead to tech and curious to learn new technologies.

Skills

- | | |
|-----------------------------|---|
| Web Development | <ul style="list-style-type: none">• Used HTML and CSS to build a responsive personal blog and for multiple team based projects• Have experience with server-side framework: Node.js, Express.js and client-side tools React.js and Redux Toolkit |

| Source Control | <ul style="list-style-type: none">• Used Git to track and manage changes to code for solo programming and to collaborate with other developers for group projects |
| Fast learner | <ul style="list-style-type: none">• Learned about object-oriented programming and Phaser 3 within 7 days to build a 2D shooting game for the final group project in Dev Academy |
| Other Skills | <ul style="list-style-type: none">• I can speak English, Mandarin, Cantonese• My personal skills are communication, teamwork, leadership, problem solving |

Experience

Student/Apprentice - Web Development Bootcamp

Dev Academy Aotearoa, Auckland, NewZealand 04/2022 - 07/2022

- This was a 15 week full immersion software development bootcamp that mimics a real-life development team as closely as possible. The course taught us a modern web dev stack with a strong emphasis on human skills, empathy, collaboration, and working in teams using agile methodology.
- For my final project, I took on a new challenge to build a game with the team. We worked under the stress of learning new tech and deadline. We learned about Phaser3 and Object Oriented programming within 7 days. My role was the product owner. I demonstrated leadership and conflict solving skills by making final decisions to the product when different opinions appeared in the team.

Sales Asistant

Farmers Takapuna store, Auckland, NewZealand 03/2020 - present

- My main responsibilities are demonstrating the proper use of a variety of beauty, hair, and skin care product and identifying client needs and goals, and assisting them in finding and selecting appropriate products, selling products to clients when appropriate
- I demonstrate customer service, communication and active listening skills, and the ability to work well with others.

IELTS Teacher

Self-employed, online lessons based in Auckland 04/2019-04/2021

- I delivered online 1-on-1 IELTS lessons to students age ranging from high school students to university students. I needed to manage and track the performance of students, and provide verbal or written feedback after each lesson.
- As self-employed, it was important to be constantly self motivated and to have the ability to work independently. I also demonstrated good social media knowledge by recruiting students through online social media platform.

New Oriental Education Group, Dongguan, China 03/2018 - 04/2019

- I conducted well structured classes to students and managed a class of up to 16 students. My other responsibilities include: making teaching plans, marking and providing students with written feedbacks, maintaining relationships with students' parents
- The main skills that I used and gained from this role were leadership, student engagement, public speaking, planning, and teamwork skills.
